A photograph of a whisky bottle and a glass. The bottle is made of clear, faceted glass and is partially filled with a golden-brown liquid. Next to it is a matching faceted glass, also partially filled with the same liquid. The items are set on a rough, textured stone surface. The background is dark and out of focus, with some light-colored stone or rock visible. The overall lighting is warm and dramatic, highlighting the textures of the glass and stone.
